The **Travel Green TOP UP** fund is for travelling distances up to 4,000 km and it is made up of:

- a **one-off payment** equal to €50,00 (NO variable amounts according to distance);
- a **daily allowance depending on the monthly scholarship** (PART A/30 days + any PART B/30 days = daily amount due). This allowance is recognised for each day of environmentally friendly travel (in both directions) in order to reach the destination and **for a maximum of 4 days**.

It will be paid after presenting **supporting evidence** of the actual **environmentally friendly travel** and time needed to reach the destination.
5. Payment methods and timing

After having signed the Mobility Agreement:

- Country contribution (part A): 100% according to the mobility period
- Extra funding based on household income, if applicable (part B): 70% according to the mobility period
- Travel grant (if applicable)
- Balance (if applicable) and payment of Travel Grant Green or Top up Travel Green (if applicable)

PLEASE NOTE:

- The final amount of financial support be calculated in accordance with the actual dates of attendance abroad (certified by the Host Institution) and considering with the number of credits acquired
- Extension of mobility will be paid only in case of availability of funds

Must be signed by all Erasmus+ grant holders (both 1st and 2nd semester)

Further information about the Mobility Agreement will be provided as soon as possible
5. Payment methods and timing

Repayment of grant – FULL

A. **Country contribution (Part A), extra funding based on household income (Part B) or Travel grant (if applicable and already paid to the student):**
   - Withdrawal from the Erasmus programme;
   - Mobility period shorter than 2 months (60 days)
   - Student failed to send the Statement of Stay («Dichiarazione di permanenza») before **31th October 2023**

A. **Extra funding based on household income (Part B):**
   Student fails to obtain:
   - 2 credits recognized per month of mobility
   - credits recognized for thesis and/or internship (not applicable in case of mobility during a PhD)
When the mobility finishes, the grant is recalculated based on the number of mobility days actually carried out and according to Erasmus+ grant calculation system.

- Early return (when the minimum duration of 60 days is fulfilled): students must return part of the funding if they spend less time on mobility than what is stated in the agreement. This equates to an amount proportional to both Parts A and B and corresponds to the number of mobility days not completed.

- If your enrolment at UniTo for the academic year 2022/2023 is not finalized by the time of your departure for your Erasmus destination.
