#### Vision

The UNITA Alliance aims to build a fully-fledged European interuniversity campus based on excellence in teaching and learning, research and innovation, and civic engagement.

UNITA students will experience a challenging, multilingual and student-centred environment, closely linked to research and entrepreneurship. They will be able to build flexible, personalised curricula across the universities of the Alliance, based on increased physical, blended and virtual mobility, thanks to new tools and new digital spaces, as well as the development of micro-credentials on inter-comprehension methods, especially among Romance languages.
