CURRICULUM VITAE
FORMAT

Personal information

Name **Luca Maria Munaron**

Address(es) Department of Animal & Human Biology. Via Accademia Albertina 13, 10125, Torino, ITALY

Telephone(s) ++390116704667

E-mail luca.munaron@unito.it

Nationality Italian

Date of birth 13.07.1966

Gender Male

Work experience

2018-present Full Professor of Physiology (University of Torino).

2004-2018 Associate Professor of Physiology (University of Torino).

1996-2004 Assistant Professor of Physiology (University of Torino).

1994-1995 Fellowship for the Italian Association for Cancer Research (AIRC).

Main activities and responsibilities

TEACHING

Courses:

Cellular Physiology and Biophysics for the master degree course of Cellular and Molecular Biology (CMB, Univ of Torino)

Evolutionary Physiology for the master degree course of Evolution of Animal and Human Behavior (ECAU, Univ of Torino)

Physiology for Sport Science (SUISM, Univ of Torino)

History of evolutionary theory (Astronave Terra) for Scuola di Studi Superiori Ferdinando Rossi (SSST, Univ of Torino)

Evolution for Scuola di Studi Superiori Ferdinando Rossi (SSST, Univ of Torino)

Cellular and Molecular Biophysics for the master degree course of Industrial Biotechnology (Univ of Torino)

History and Philosophy of Life Sciences for the master of Didactics for Secondary School (SSIS, Univ of Torino)

General Physiology for the undergraduate courses in Biological Sciences and Natural Sciences (Univ of Torino)

Didactics on Natural sciences (1998-2007; Faculty of Educational Sciences, Univ of Valle d'Aosta, IT)

Supervisor of several master students from different backgrounds (Cell Biology, Biotechnology, Physics).

Supervisor of 8 PhD students (PhD Complex Systems for Life Science, University of Torino).

INSTITUTIONAL POSITIONS

2021-present. President of the Joint Teaching Committee for the School of Sciences (Univ of Torino).
2019-2021. Member of the Joint Teaching Committee for the School of Sciences (Univ of Torino).
2020-present. Member of the Committee for Sport Activities of University of Torino.
2018-21 President of the Committee for Public Engagement at the Department of Life Sciences and Systems Biology (Univ of Torino).
2019-21 Co-founder of The Public Engagement Lab (Univ of Torino).
2020-22 Member and sub-coordinator of GEV panel for Life Sciences (ANVUR; VQR 2015-19).

RESEARCH ACTIVITY

Bibliometric parameters

Author of more than 100 full papers on indexed international journals (Last name/corresponding author of >40 papers).

Total citations:

>2900 Scopus
>2800 Web of Science
>4000 Google Scholar

h index:

35 Scopus
34 Web of Science

39 Google Scholar: included in Top Italian Scientists list for Biomedical Sciences (VIA Academy).

Main Scientific Contributions

He started working on the role and properties of mitogenic calcium signals in fibroblasts. Identification and characterization of the role of store-independent calcium entry in the control of cell proliferation.

He was the first to identify the critical role of arachidonic acid as a key regulator of mitogenic-related calcium signals, providing a detailed biophysical description of the channels involved. In the 1997 he founded the Laboratory of Cellular and Molecular Angiogenesis (LACM) at the Department of Life Sciences & Systems Biology. Since 2019, LACM is a part of The International Associated Laboratory "CaPANCInv" (with Lille and Munster Universities).

He provided substantial evidence about the function of voltage-independent calcium signals in the control of endothelial cell proliferation, migration and angiogenesis. In particular, by the use of high-resolution confocal microscopy calcium measurements in living cells, he revealed the existence of proangiogenic calcium microdomains in endothelial cells. He provided a detailed description of the complex intracellular signaling responsible for calcium channel regulation, including arachidonic acid, nitric oxide and the novel gasotransmitter hydrogen sulfide (H₂S). He was one of the first to suggest a role for TRP channels in endothelial cell proliferation. More recently, he focused part of his research on proangiogenic calcium signals in tumor-derived endothelial cells, providing substantial evidence on the differences between endothelial cells from normal tissues and the tumoral endothelium. The experimental data have been successfully employed to provide mathematical models for the quantitative description and prediction of some key features of neovascularization.

A number of collaborations are ongoing with several industries to integrate basic research with more applied topics, including the role of vascularization in hair growth, bone remodeling and repair and the vascular effects of nutraceuticals in diabetes and metabolic syndrome. Another recent interest is focused on the interaction between biological tissues and nanoparticles.

Current research interests

Ion channels, calcium signaling and angiogenesis. Intracellular signaling in tumor-derived endothelial cells, with particular interest for the role of calcium channels
Mathematical Modeling. Biomathematical models for vascularization and angiogenesis
Nanobiofotech. Use of functionalized nanotubes for drug delivering against tumor vascularization.
Skin vascularization. In vitro co-culture approaches for testing natural products of dermatological interest.
Bone vascularization and biomaterials. In vitro evaluation of biocompatibility of biomaterials for bone and dental implants.

Scientific memberships

Scientific Board of The Italian Society for Cardiovascular Research (SIRC).
Scientific Board of Nanostructured Interfaces and Surfaces (NIS) Inter-departmental Centre (Univ of Torino).
Scientific Board for the Doctoral School in Complex Systems for quantitative biomedicine (Univ of Torino).
Member of The Italian Physiological Society (SIF).
Member of the Interdepartmental Centre of Systems Biology (Univ of Torino).
Member of the Interuniversity Research Centre on Epistemology and History of Life Sciences-Res Viva (Univ of Rome).
Member of The third way of Evolution Group (<https://www.thethirdwayofevolution.com/>)

Editorial and Reviewer activity

Editorial Board of international journals

- Cancers (MDPI). Editorial Board
- Frontiers in Physiology. Associate Editor. Section: Vascular Biology.
- Frontiers in Physiology. Guest Associate Editor. Section: Membrane Physiology and Membrane Biophysics
- Frontiers in Cellular Neuroscience. Review Editor.
- Oncology Research. Editorial Board.
- Recent Patents on Anticancer Drug Discovery (Bentham Science Publishers) Editorial Board-Regional Editor
- Current Medicinal Chemistry (Bentham Science Publishers). Guest Editor for 'Hot Topic Intracellular Calcium Signaling: Holding the Balance between Health and Disease' (2012)
- World Journal of Biological Chemistry (Baishideng Publishing). Editorial Board
- International Journal of Biostatistics & Computational Biology (IJBCB). Editorial Board

Reviewer for high impact international journals.

Reviewer for international agencies (UK, Switzerland, China, United Arab Emirates, Japan).

Invited speaker and chairman in national and international meetings, workshops, and seminars.

PROJECTS

Local Unit Coordinator of the PRIN 2017 Project: Leveraging basic knowledge of ion channel networks in cancer for innovative therapeutic strategies (LIONESS).

Research project of Ateneo- Compagnia di San Paolo 2014: 'TRP channels functionalized nanoparticles to target prostate cancer vascularization' (Participant).

Research project of the University-Compagnia di San Paolo 2011: 'Nanostructured materials and interfaces for frontier technologies' (Participant).

Principal Investigator for the 2007 Alfieri Project (CRT Foundation): 'Role of intracellular calcium in tumour angiogenesis'.

Principal Investigator for the Finalized Health Research Projects of the Piedmont Region (2003, 2006, 2007, 2008, 2009).

Co-Presenter of the CIPE 2004 Project: 'Biocompatible nanostructured materials for biomedical applications'.

TECHNOLOGICAL TRANSFER

Scientific supervisor for University-Industry agreements with Rottapharm-Madaus, Monza, ITA, Meda Pharma, Monza, ITA, Twocare, Torino, ITA, Eltek, Alessandria, ITA, Tiss'you, San Marino, Biomec, Lecco, ITA, Abel Nutraceuticals, ITA.

PUBLICATIONS

See attached appendix

Education and training	1994-1995: Fellowship for the Italian Association for Cancer Research (AIRC). 1994: Ph.D. in Physiological Sciences (University of Milano). 1990: Degree in Biological Sciences (University of Torino).															
Personal skills and competences																
Mother tongue(s)	Italian															
Other language(s)																
Self-assessment																
European level (*)																
English	<table border="1"> <thead> <tr> <th colspan="2">Understanding</th> <th colspan="2">Speaking</th> <th>Writing</th> </tr> <tr> <th>Listening</th> <th>Reading</th> <th>Spoken interaction</th> <th>Spoken production</th> <th></th> </tr> </thead> <tbody> <tr> <td>B2 independent user</td> </tr> </tbody> </table>	Understanding		Speaking		Writing	Listening	Reading	Spoken interaction	Spoken production		B2 independent user				
Understanding		Speaking		Writing												
Listening	Reading	Spoken interaction	Spoken production													
B2 independent user	B2 independent user	B2 independent user	B2 independent user	B2 independent user												
	(*) <i>Common European Framework of Reference for Languages</i>															
Social skills and competences	Good communication skills gained through attendance to numerous working groups, and managing collaborations and networks.															
Organisational skills and competences	Good experience in project and team management as group leader and coordinator of multidisciplinary local, national and international research and teaching programmes															
Technical skills and competences	Cell biology and Biophysics															
Computer skills and competences	-High level mac and windows user -Good knowledge of Microsoft Office tools (Word, Excel, PowerPoint) -Good knowledge of graphic design applications (Adobe Photoshop)															
Artistic skills and competences	Music player (piano, acoustic and electric guitars) and composer															

LUCA MUNARON

DISSEMINATION ACTIVITY

Books in Italian

Fisiologia Evolutiva. Riflessioni su stabilità e modificazione nei viventi, Franco Angeli Editore, 2019.

Fisiologia della Cellula (with Davide Lovisolo), Bollati Boringhieri, 2003.

Dizionario di Biologia (Multiple authors, curated by Aldo Fasolo), UTET, 2003.

Book reviews on ‘L’Indice dei libri del mese’ (Italian)

1. Una pulsione condivisa da tutti i viventi. 2022
2. Vent’anni senza Gould. 2022
3. Quali sono i confini della biologia. 2022
4. Abbiamo bisogno del dottor Spock. 2020
5. Che cos’è l’eusocialità. 2020
6. Per la nascita di una umanità planetaria. 2020
7. I coralli sono vivi o morti? 2019
8. Il nonno di Charles. 2019
9. Un incontro mai avvenuto. 2019
10. Mio caro Neandertal. 2018
11. Il grande balzo in avanti. 2017
12. Tra Ippocrate e Galeno. 2017
13. Caprelli e lupocani come modelli matematici. 2016
14. Cinque anni sul Beagle. 2006
15. L’impero della vita. 2005
16. Modifiche nel sistema operativo. 2004
17. I casi della vita. 2004
18. Discipline anfibie. 2004
19. Perchè ricordare Darwin. 2004
20. Morale darwiniana. 2003
21. Tempeste biogenetiche. 2002
22. Fisiologia ottocentesca. 2001

Lectures of general interest
