The Universitas Montium Consortium (**UNITA**) invites the teaching and administrative staff of its member universities to attend a new event of its Teaching & Learning Centers network.
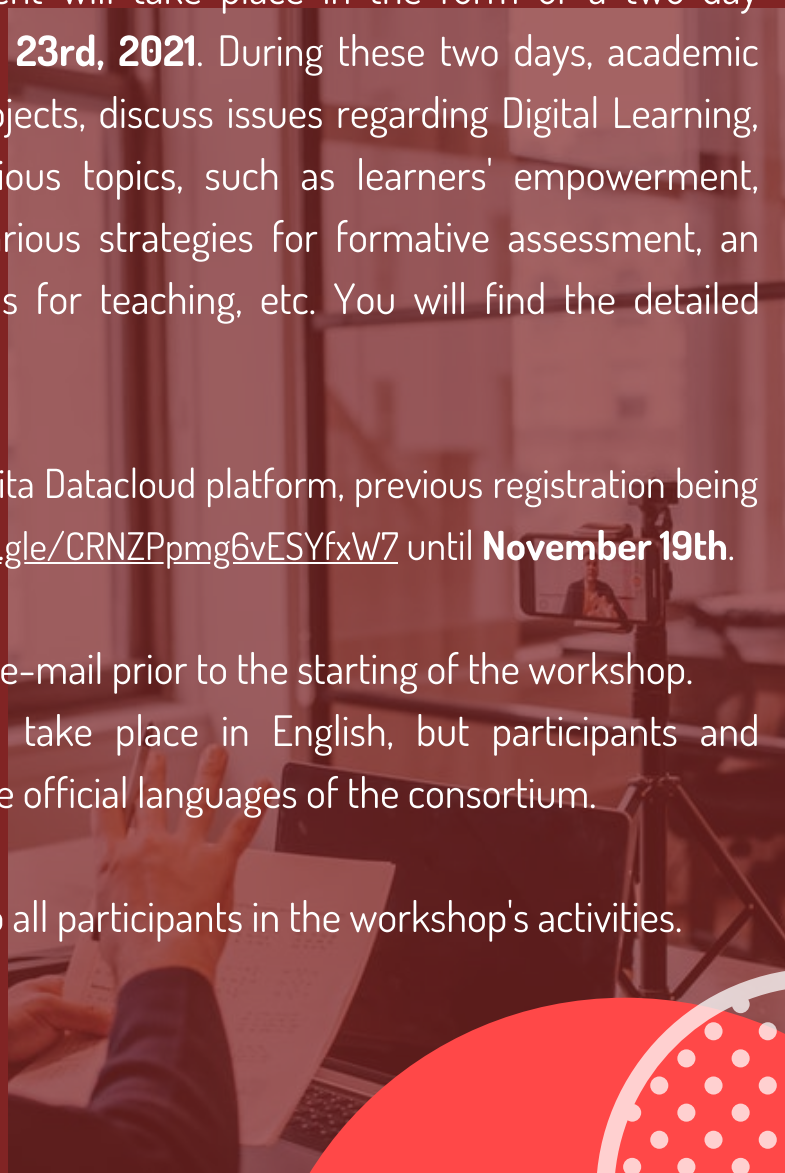

This event is aimed at exchanging good practices on **Digital Learning**, offering both theoretical and practical modules on the topic. The event will take place in the form of a two-day workshop occurring on **November 22nd and 23rd, 2021**. During these two days, academic staff from the Consortium will share their projects, discuss issues regarding Digital Learning, and exchange good practices regarding various topics, such as learners' empowerment, student engagement & motivation online, various strategies for formative assessment, an attractive use of Moodle and interactive tools for teaching, etc. You will find the detailed program of these meeting days below.
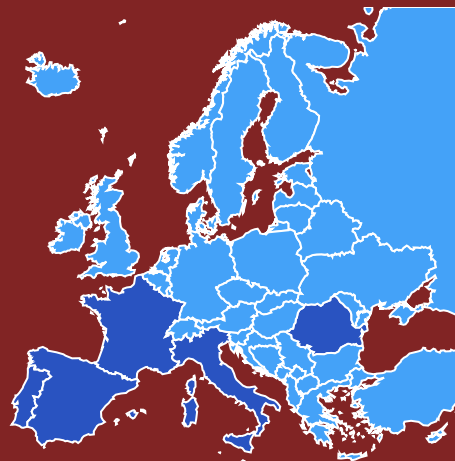

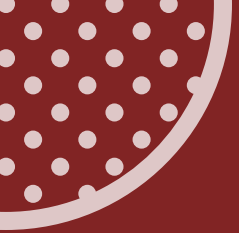

All presentations will take place online via the Unita Datacloud platform, previous registration being required by completing the form at https://forms.gle/CRNZPpmg6vESYfxW7 until **November 19th**.

Participants will receive the connection link via e-mail prior to the starting of the workshop.
Note: for this event, the presentations will take place in English, but participants and presenters can bring in documents in one of the official languages of the consortium.

A **certificate of attendance** will be awarded to all participants in the workshop's activities.

22nd NOVEMBER, 2021 – DAY 1

10 AM – EU DigComp Conceptual Framework with special attention to the five basic competences of DigCompEdu: an overview
